- Organizations certified to ISO 45001 can be more confident about meeting the requirements of Health and Safety legislation.
- The setting of targets through your Health and Safety policy, together with the ongoing measurement against them ensures a process of continual improvement;
- Certification by MSS Global, as an internationally accredited, respected, qualified and independent expert reinforces your credibility and helps protect your reputation;
- Your certification increases client confidence; you are able to demonstrate sustained performance through an enduring program of external audit; certification is a value for money 'assurance' investment.

THE CONTINUOUS IMPROVEMENT PROCESS: ASSURANCE THROUGH PERFORMANCE

ISO 45001 – KEY POINTS TO CONSIDER

- A risk based approach lies at its heart;
- ISO 45001 helps you design and codify your health safety management controls and arrangements;
- It encompasses core and supporting business functions, and helps you manage your suppliers;
- Health and safety is a corporate governance issue. The Board should integrate it into the main governance structures, including Board sub-committees, such as risk, remuneration and audit.
- Like any effective management control system, ISO 45001 needs to be driven by the senior management team, and resourced.
- ISO 45001 is not a 'tick box' standard.

DURING INTERVIEW AND INVESTIGATIONS MSSG STAFF LARGELY PUT PERSONNEL AT EASE AND WERE ABLE TO RE-PHASE QUESTIONS WHEN REQUIRED IN ORDER TO ENSURE THAT THEY WERE UNDERSTOOD.
