

## QUALITY MANAGEMENT SYSTEM ISO 9001:2015

### WHY CHOOSE MSS GLOBAL?

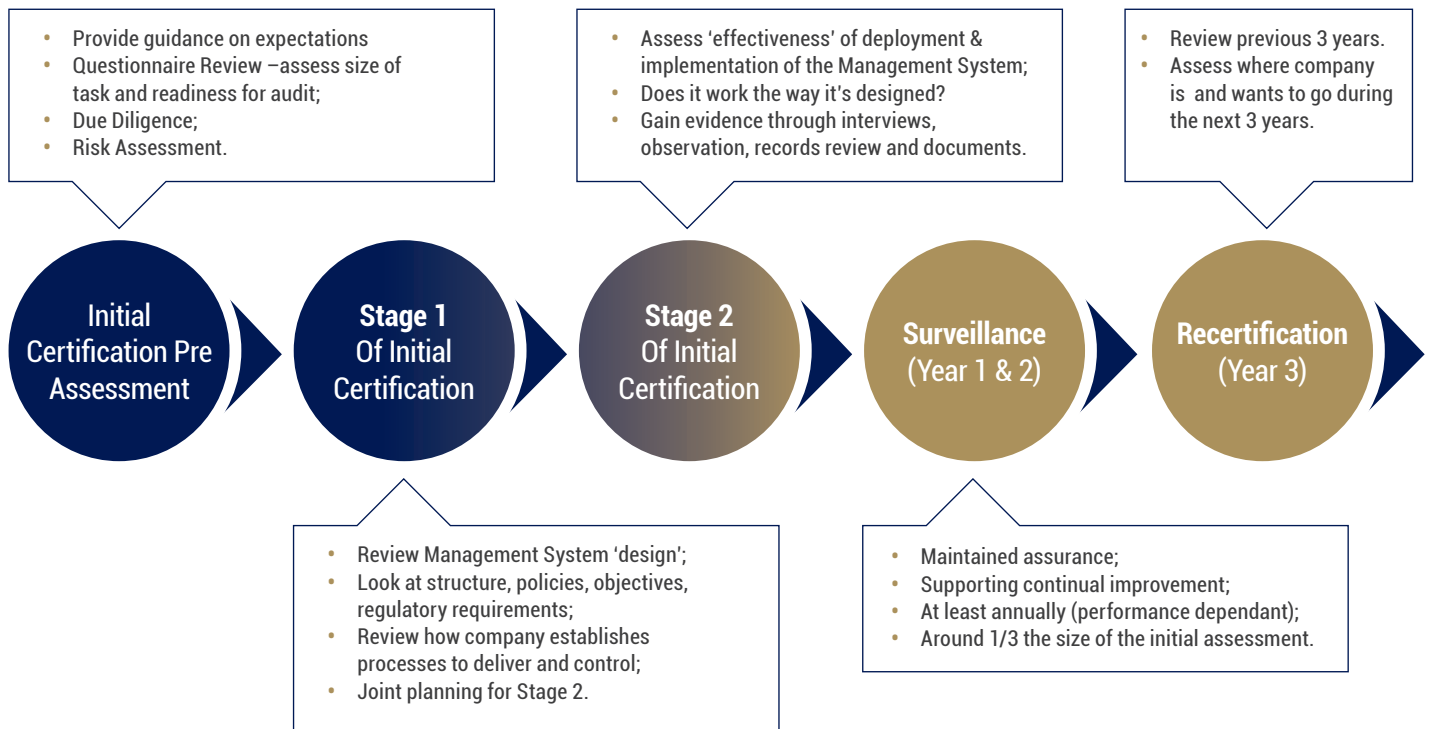

- We are a client focused accredited security specialist Certification Body;
- We are not a 'generic' Certification Body;
- Our assessment is efficient and effective – we understand your challenges, and speak your language;
- As operators who are born of and understand your enterprise wide risks, we have unparalleled international knowledge to support your certification;
- MSS Global is on a number of national and international committees for the development of security industry international standards;
- What's the Value? Initial certification lasts for 3 years subject to annual surveillance, enabling you to bid for contracts where this standard is a conditional requirement.

Contact [info@mssglobal.com](mailto:info@mssglobal.com) to help you achieve ISO 9001 certification. We can give you an understanding, provide you with a gap analysis, and point you in the right direction.

### THE BENEFITS OF ISO 9001 CERTIFICATION

- The system provides senior management with the ability to demonstrate effective control;
- A common requirement for tenders; it is mandatory if you want to bid for some public sector and major client contracts;
- It demonstrates your commitment to improved quality and service, providing marketing opportunities;
- Implementing the system helps communicate a positive message to staff and customers alike;
- It helps you identify best practices, more efficient and time saving processes and reduces costs;
- The controls help provide oversight and continuous improvement of your business as whole;
- You are able to demonstrate sustained performance through an enduring programme of external audit; certification is a value for money 'assurance' investment.

## THE CONTINUOUS IMPROVEMENT PROCESS: ASSURANCE THROUGH PERFORMANCE

### ISO 9001 – KEY POINTS TO CONSIDER

- A Quality Management System (QMS) – which has a risk based approach at its heart;
- ISO 9001 helps you design and codify your business management controls, ensuring 'quality' resides at the core;
- ISO 9001 covers key aspects of enterprise management; it places a strong emphasis on your identification of stakeholders, including clients, employees and subcontractors. And it enables a company to identify relevant legal and regulatory guidelines for its operations;
- It encompasses core and supporting business functions, and your supply chain;
- Like any effective management control system, ISO 9001 needs to be driven by the senior management team, and resourced.

**THE WHOLE ACCREDITATION WAS MADE EASY BY CLEAR GOALS AND TIMELINES TO MEET.... ONCE AGAIN MSS GLOBAL HAVE SURPASSED MY EXPECTATIONS.**
