

PRIVATE SECURITY COMPANY OPERATIONS ANSI/ASIS PSC.1

WHY CHOOSE MSS GLOBAL?

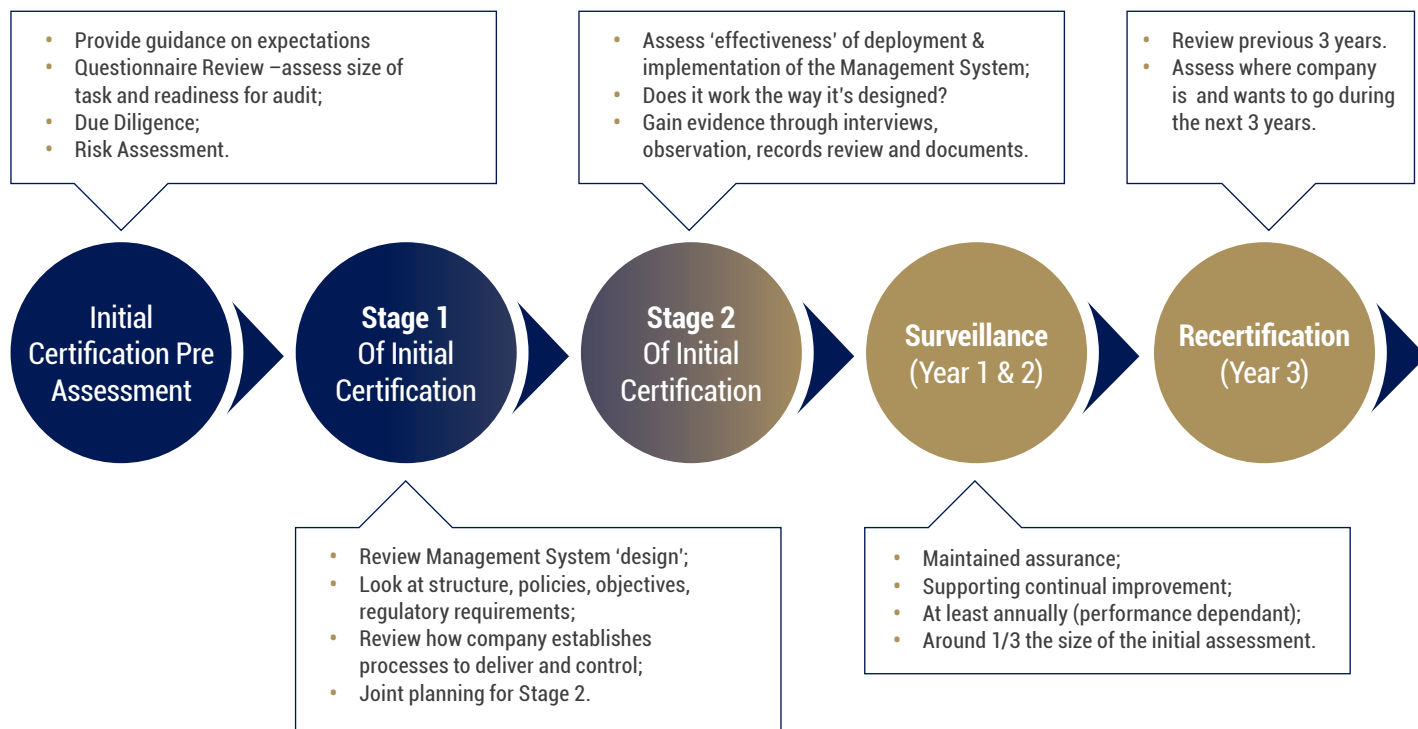

- We are a client focused internationally accredited Certification Body (IAF MLA) that has unparalleled security sector experience;
- We are not a 'generic' Certification Body;
- Our assessment is efficient and effective – we understand your challenges, and speak your language;
- As operators who are born of and understand your enterprise wide risks, we have unparalleled international knowledge to support your certification;
- MSS Global are on the UK committee for the development of ISO 18788, and helped develop the US ANAB PSC 1 Accreditation Rule;
- Value for money investment: initial certification lasts for 3 years subject to annual surveillance, enabling you to bid for contracts where this standard is a conditional requirement.

Contact info@mssglobal.com to help you achieve PSC.1 certification. We can give you an understanding, provide you with gap analysis, and point you in the right direction.

THE BENEFITS OF PSC.1 CERTIFICATION

- As a Private Security service provider or client, certification to PSC.1 provides credibility, demonstrating effective Corporate Governance – from Board level, to physical delivery;
- Auditing covers from a company's Head Office out to the point of service delivery to clients;
- PSC.1 enshrines the protection of human rights within the PSC industry's business practices and provide confidence in the quality and professionalism of security firms operating in fragile and complex environments;
- Certification reinforces your credibility and helps you protect your reputation;
- It helps clients protect their reputation, enhances the likelihood of operational success, and reduces internal audit and due diligence burden;
- PSC.1 is unlike almost any other standard, it is based upon the ethos of the Montreux Document on Private Military & Security Companies. Certification provides clients, governments and communities with assurance;
- You are able to demonstrate sustained improvement to clients through opening up operations to ongoing and regular independent scrutiny; certification is a value for money 'assurance' investment.

THE CONTINUOUS IMPROVEMENT PROCESS: ASSURANCE THROUGH PERFORMANCE

PSC.1 – KEY POINTS TO CONSIDER

- A Quality Assurance Management System (QAMS) with a risk based approach at its heart;
- PSC.1 enshrines the protection of human rights within the industry's business practices and provides confidence in the quality and professionalism of security firms operating in fragile and complex environments.
- It covers key aspects of enterprise risk management, placing a strong emphasis on your identification of stakeholders, including clients, employees, subcontractors, and local communities. And it enables a company to identify relevant legal and regulatory guidelines for its operations.;
- It encompasses core security and supporting business functions, and your supply chain;
- Human Rights awareness is an intrinsic strand; it does not sit as an 'adjunct'; it is interwoven across all business functions and processes – from business development, to planning, to supplier selection, to end point delivery;
- Like any effective management control system, PSC.1 needs to be driven by the senior management team, and resourced;
- PSC.1 is not a 'tick box' standard.

HOW MSS GLOBAL CAN SUPPORT YOU

- We can help if you are unsure of the preparation required to achieve PSC.1 certification. We can give you an understanding, provide you with a gap analysis, and point you in the right direction;
- We also offer education packages* to help you gain the most value from introducing the system.
